FEAST 2017 Workshop Organization	vi
---	-----------

Session 1: Binary Rewriting and Transformation

• Vertx: Automated Validation of Binary Transformations.....	1
Denis Gopan (<i>GrammaTech, Inc.</i>), Peter Ohmann (<i>Xavier University & GrammaTech, Inc.</i>), David Melski (<i>GrammaTech, Inc.</i>)	
• Zipr++: Exceptional Binary Rewriting	9
Jason Hiser, Anh Nguyen-Tuong, William Hawkins, Matthew McGill, Michele Co, Jack Davidson (<i>University of Virginia</i>)	
• RL-Bin, Robust Low-overhead Binary Rewriter	17
Amir Majlesi-Kupaei, Danny Kim (<i>University of Maryland</i>), Kapil Anand, Khaled ElWazeer (<i>SecondWrite LLC</i>), Rajeev Barua (<i>University of Maryland</i>)	
• DamGate: Dynamic Adaptive Multi-feature Gating in Program Binaries	23
Yurong Chen, Tian Lan, Guru Venkataramani (<i>George Washington University</i>)	

Session 2: CPS, Mobile, and Intel SGX

• CPS Runtime Architecture And Automated Transformation of Applications	31
Lui Sha (<i>University of Illinois at Urbana Champaign</i>)	
• ReDroid: Prioritizing Data Flows and Sinks for App Security Transformation	35
Ke Tian (<i>Virginia Tech</i>), Gang Tan (<i>Penn State University</i>), Danfeng (Daphne) Yao, Barbara G. Ryder (<i>Virginia Tech</i>)	
• Binary Code Retrofitting and Hardening Using SGX	43
Shuai Wang (<i>Pennsylvania State University</i>), Wenhao Wang (<i>Indiana University Bloomington & Chinese Academy of Sciences</i>), Qinkun Bao, Pei Wang (<i>Pennsylvania State University</i>), XiaoFeng Wang (<i>Indiana University Bloomington</i>), Dinghao Wu (<i>Pennsylvania State University</i>)	

Session 3: Software and Protocol Debloating

• New Directions for Container Debloating	51
Vaibhav Rastogi (<i>University of Wisconsin-Madison</i>), Chaitra Niddodi, Sibin Mohan (<i>University of Illinois at Urbana-Champaign</i>), Somesh Jha (<i>University of Wisconsin-Madison</i>)	
• An Initial Investigation of Protocol Customization	57
David Ke Hong, Qi Alfred Chen, Z. Morley Mao (<i>University of Michigan</i>)	
• A Multi-OS Cross-Layer Study of Bloating in User Programs, Kernel and Managed Execution Environments	65
Anh Quach, Rukayat Erinfolami, David Demicco, Aravind Prakash (<i>Binghamton University</i>)
